U.S. DEPARTMENT OF TRANSPORTATION

FEDERAL AVIATION ADMINISTRATION

This order describes the procedures for completion and use of the Federal Aviation Administration (FAA) Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag. The order describes the use of the form for domestic airworthiness approval, conformity inspections, and prepositioning; airworthiness approval of new products and articles; and splitting bulk shipments of previously shipped products and articles. It also provides guidance for the issuance of the form for approval for the return to service of products and articles, the export airworthiness approval of products and articles, and the electronic exchange of the form.
